GREAT SEAL OF THE UNITED STATES. The annual meeting of this society was held last Wednesday evening in the University, the Hon. Luther Bra-cish, Fresident, in the chair. Although the weather was rather unfavorable, there was a very fall atteniance of members. After the reading and approval of the minutes, the monthly report of the Domestic Corresponding Secretary was read by Rev. Mr. Osgood. Accompanying this report were letters from Mr. J. K. Fefft, Secretary of the Georgia Historical Society, giving some interesting information relative to the history of the In-South Carolina Historical Society, containing some state-ments in regard to the progress of historical research in that State, and the late celebration of the battle of King's Mountain, a full report of which appeared in the Herald

of the Revolution, read an exceedingly interesting his-tory of the Great Seal of the United States. He comof the Revolution, read an exceedingly interesting history of the Great Scal of the United State. He commenced by giving an account of the crigin of scale from the time of the Egyptien King Cheeps to the present day. In regard to the Great Scal, he said, the first commistee on the subject was appointed on the 4th of July. 1770. This committee reported in 1779, at which time another, was appointed. The report of this committee was presented in Congress on the 10th of May, 1780. Nothing was doughed. This scal was described as follows:—Thirteen stripes, red and blue, on a shield, above which is a blue field, with thirteen stars, intended to represent the thirteen original States. These are all displayed on the breast of the American cagle, which holds in its right talon an olive branch, in his left a bundle of thirteen arrows, and in his beak a scroll inscribed with the motio "E Plurtius Unaum." For the creat over the head of the cagle there is a glory breaking through a cloud, and within this glory is thirteen stars on a blue field. On the reverse of the scal is can unfinished pyramid, above which is the all-seeing eye, and over this again are the words. "Amout Captes"—God has favored the undertaking "On the base of the pyramid is the delivery of the scal is a commenced in the New World."

Mr. Loesing concluded by reading a series of extracts from the prophecies of Martin in regard to this country, which dates back as much as a thousand years. This prophecy was publiced in Piniadelphia, in 1877, whis interpretations, while the cenvention which formed the Reeral constitution was in session in that city. Here is the clearest and most pointed of the prophecies:—

When the cock shall guard the cagle ness.

The each is said to represent France and the cagle America.

A vote of thanks was tendered to Mr. Loesing, and a cepy of his maper requested for the library, after which

A vote of thanks was tendered to Mr. Lossing, and a copy of his paper requested for the library, after which the meeting adjourned.
